

Faculty of Science - Readmission Supplemental Form

IMPORTANT: Upload this form as part of your application to UBC Admissions

Student Information

Last Name: _____ Given Name(s): _____ Preferred Name (if any) _____

UBC Student Number: _____ Email Address: _____ Last Year Level at UBC _____

If readmission is approved, state your preferred Specialization (e.g. Biology, Physics, Statistics, CMS)

Readmission Information

UBC Science requires some students to take coursework elsewhere. The guidelines were given to you when you were required to leave your studies. You may also find this information here: <http://www.calendar.ubc.ca/vancouver/index.cfm?tree=12,215,410,1460>

Were you required to take courses elsewhere during your time away from UBC?

Yes

No

If yes, submit transcripts to UBC Admissions as part of your application for readmission.

Personal Statement: Please describe the changes you have made to address the issues that caused you to fail in your coursework while a student in UBC Science. For instance, if financial or relationship issues contributed to your unsatisfactory academic standing, describe both the issues and the steps you've taken so they will not cause you to struggle if you are readmitted. Remember, the Readmission Committee is looking for evidence that the difficulties that hindered you are no longer an obstacle for you. Limit your statement to 300 words maximum.

Supporting Documentation: You may submit letters from a treating health professional, family member, financial institution, employer or friend as appropriate. Are you submitting supporting documentation?

Yes, I am submitting supporting documentation

No, I am not submitting supporting documentation

If you are submitting documentation, please list here. All supporting documentation, including this form, should be uploaded as part of your UBC application for readmission.

Your Academic Plan

In this space, list all coursework you intend to take if your readmission is approved. Put an X or a check beside courses that are required for your intended specialization. Include credit values for each, and the term in which you intend to take the course. Remember to include any prerequisites you may need for upper-level courses.

Resources you may find helpful for this:

[The UBC Calendar entry for your intended specialization](#)

An advisor at the [Science Information Centre](#)

A department advisor in your intended specialization

Your goal, once all your courses are done, is to meet all degree requirements so you can graduate. Indicate whether your plan will meet degree requirements. If you aren't sure, leave the box unchecked. Include courses already passed or failed at UBC, any transfer credits you may have, as well as those in your course plan.

At least 120 total credits but not more than 180

At least 72 credits in the Faculty of Science

At least 48 upper-level credits

All the upper-level credits required for your specialization, according to the UBC Calendar

Lower-level Science requirements

Arts, Breadth, and Communication requirements

STOP HERE AND UPLOAD THIS FORM TO ADMISSIONS.

For Faculty of Science Admin Use Only:
