

Faculty of Science - Appeal for Permission to Continue For Students Required to Withdraw/Discontinue Studies in Science

Student Information

Last Name: Given Name(s): Preferred Name (if any)

UBC Student Number: Email Address: Current UBC Year Level

Intended Specialization if Appeal is Successful (e.g. Biology, Physics, Statistics, CMS)

Appeal Information: Please provide information on your most recent winter session in Science

What was your average for the session? (e.g. 49.3%)	How many credits did you attempt? How many did you pass? e.g. 24 credits attempted, 16 credits passed	Did you attend or watch the webinar for Science students required to withdraw?
		Yes No

What resources have you used at UBC? May include, but not limited to: Access & Diversity, Counselling Services, Student Health Services, Peer Wellness Centre, Coaches' Corner, AMS Tutoring, Math Help Centre, Writing Centre, Science Information Centre (Science Advising), Department Advisor. If applicable, briefly list off-campus services you have used to support you. If you have never asked for help, briefly explain why not.

Personal Statement: Please summarize what caused you to struggle in your studies and/or fail to make academic progress. Then tell us the changes you are making so we can be confident your grades will improve, if you are permitted to continue. For instance, if you were working too many hours, let us know if you are getting a student loan or help from a family member so you can reduce your hours of work, and have more time to study. Remember, we are looking for evidence that whatever hindered you is no longer going to be an obstacle. Limit your statement to 300 words maximum.

Supporting Documentation: You may submit letters from a treating health professional, family member, financial institution, employer or friend as appropriate. Are you submitting supporting documentation?

Yes, I am submitting supporting documentation

No, I am not submitting supporting documentation

If you are submitting documentation, please list here and submit with this form.

Your Academic Plan

In this space, list coursework you intend to take in the next winter session if your appeal is approved. Include credit values for each, and the term in which you intend to take the course. Remember to include any prerequisites you may need for upper-level courses.

Resources you may find helpful for this:

[The UBC Calendar entry for your intended specialization](#)

An advisor at the [Science Information Centre](#)

A department advisor in your intended specialization
